

Lean Pilot Budget — Revised

Health access platform (working name TBD). Founder-built with Claude Code, SEC-registered, no office, two field reps, print-only marketing. Revised after competitive research: YAKAP clinics generate no revenue, doctors added as a paying segment. 36-month estimates in Philippine pesos.

Metric	One LGU (city or municipality)	One province
Year 1 operating costs	₱2.5M	₱3.0M
Year 1 marketing	₱0.32M	₱0.70M
Year 3 revenue	₱1.2M	₱2.8M
Peak cash need, as specified	₱6.2M	₱5.6M
Peak cash need, all levers	₱3.9M	₱3.6M
Sustained break-even, all levers	Not within 36 months	Month 31

All unit prices, adoption rates and volumes are planning estimates, not forecasts. Replace them with real quotes and pilot data as soon as you have them. Revenue is VAT-exclusive; income tax, VAT remittance, interest and depreciation are excluded.

1. What changed, and why

Competitive research changed three assumptions that the previous budget depended on.

Change	Previous budget	This version	Why
YAKAP clinic revenue	₱999/month, 40% adoption	₱0 — clinics are free	PhilHealth runs a Certified Service Provider programme with roughly 29 certified vendors under YAKAP 1.1 (SeriousMD, mWell HealthSuite, BluHealth, DigiHealth, Soltech among them). Clinics pay for claims submission, capitation tracking and empanelment — functions that need EMR capability we have ruled out. SeriousMD also publishes a free Basic tier. Charging a clinic to sit beside its certified system is not a viable line.
Doctors	Not modelled	₱499/month, 20% adoption, plus ₱50 per teleconsult	Doctors are now a full segment. Adoption is set low deliberately: SeriousMD gives Filipino doctors a free EMR, so willingness to pay for a front-office tool is unproven.
Teleconsult pricing	Patient-facing consult revenue	Doctor-side fee only	Competitors run roughly ₱120–₱750 per consult, and mWell/KonsultaMD offer about ₱150/month unlimited; Medgate is free for some HMO members. There is no room to compete on consult price.
Launch timing	Everything live month 5	Dashboards month 6, patient app month 10	The build order is admin console, then doctor and provider dashboards, then the patient app. Provider revenue starts earlier; family and OFW revenue starts later.
Regulatory spend	One legal setup	Added ₱150,000 health-law review before teleconsult ships	Teleconsult brings DOH AO 2020-0013, PhilHealth Circular 2021-0013, e-prescription rules and RA 10173 obligations forward.

Net effect: revenue is lower and arrives later than the previous budget showed. That is the honest position, not a worse plan.

2. Assumptions

Scope

Item	One LGU (city or municipality)	One province
Diagnostic partner branches (mature)	5	12
Partner pharmacies (mature)	15	40
PRC-verified doctors (mature)	10	25
YAKAP clinics listed (free, no revenue)	6	12
Public sites for standees	10	30
Active families (mature)	2,500	5,500
Field reps	2	2
Rep expenses covered (per rep)	₱6,000/month	₱12,000/month
Billboards	1	2

Months 1–5 build the admin console and the dashboards. Partners go live month 6; the patient app and public site land month 10. Partners mature over 18 months, families over 24.

Revenue drivers at maturity

Driver	Value	Driver	Value
Diagnostics bookings per branch	150/month	Booking fee	₱60
Diagnostics subscription	₱1,500/month	Adoption	35%
Pharmacy subscription	₱799/month	Adoption	25%
Pharmacy reservations	60/month each	Reservation fee	₱8
Doctor subscription	₱499/month	Adoption	20%
Doctors offering teleconsult	25%	Teleconsults each	20/month
Teleconsult platform fee	₱50	Video cost per session	₱15
Home service share of bookings	8%	Home service commission	₱80
Families with a member abroad	30%	Remote payments each	0.72/month
Remote payment fee	₱39	Family plan	₱149/month at 4%
YAKAP clinic subscription	₱0 (free segment)	Clinic booking fee	₱0

Team and other costs

Item	Cost
Founder (product and engineering)	₱0 salary — you build it with Claude Code
Claude Max 20x (US\$200 at ₱58/US\$, plus 12% VAT)	₱12,992/month
Field reps (2)	₱25,000 base each (₱30,000 loaded), no commission
Support and data verification	₱18,000 base (₱22,500 loaded), from month 6
UI/UX designer (freelance)	₱20,000/month to month 6, then ₱8,000
Bookkeeper (part-time)	₱8,000/month
SEC registration setup (stock corporation), BIR, permits, notarization	₱60,000 one-time
Annual corporate compliance (corporate secretary, GIS, audited FS, renewals)	₱70,000 a year
Legal and privacy setup (NPC registration, privacy notice, terms, agreements)	₱250,000 one-time
Health-law review before teleconsult ships	₱150,000 in month 4
Legal retainer	₱15,000/month
Security review	₱150,000 in month 18
Hosting, APIs and tools	₱13,000/month during build, ₱20,000 after launch
Managed video provider	₱15 per teleconsult session
SMS and Viber	₱0.60 per message
Payment gateway	3% of patient-paid revenue
Field devices	₱40,000 one-time
Office	None
Contingency	5% of all costs

3. 36-month projection: One LGU (city or municipality)

Revenue

Revenue	Year 1	Year 2	Year 3	3-year total
Diagnostics booking fees	₱0.03M	₱0.31M	₱0.54M	₱0.88M
Diagnostics subscriptions and home service	₱0.00M	₱0.06M	₱0.09M	₱0.15M
Pharmacy subscriptions and reservations	₱0.01M	₱0.08M	₱0.12M	₱0.20M
Doctor subscriptions	₱0.00M	₱0.01M	₱0.01M	₱0.02M
Teleconsult fees	₱0.00M	₱0.02M	₱0.03M	₱0.05M
YAKAP clinics (free segment)	₱0.00M	₱0.00M	₱0.00M	₱0.00M
OFW remote payment fees	₱0.01M	₱0.11M	₱0.22M	₱0.33M
Family plan subscriptions	₱0.00M	₱0.07M	₱0.15M	₱0.23M
Total revenue	₱0.05M	₱0.65M	₱1.16M	₱1.87M

Operating costs

Cost	Year 1	Year 2	Year 3	3-year total
Team	₱0.93M	₱1.24M	₱1.30M	₱3.48M
Claude Max subscription	₱0.16M	₱0.16M	₱0.16M	₱0.47M
Hosting, APIs and video	₱0.22M	₱0.26M	₱0.26M	₱0.73M
SMS and payment fees	₱0.00M	₱0.05M	₱0.09M	₱0.14M
Legal, registration, reviews	₱0.64M	₱0.40M	₱0.25M	₱1.29M
Field transport and devices	₱0.14M	₱0.14M	₱0.14M	₱0.43M
Marketing (standees, billboards, flyers)	₱0.32M	₱0.42M	₱0.42M	₱1.15M
Contingency (5%)	₱0.12M	₱0.13M	₱0.13M	₱0.38M
Total operating costs	₱2.53M	₱2.79M	₱2.75M	₱8.07M
EBITDA	-₱2.47M	-₱2.14M	-₱1.59M	-₱6.21M

Operating metrics

Metric	Year 1	Year 2	Year 3
Average monthly operating cost	₱0.21M	₱0.23M	₱0.23M
Partner providers (year end)	16	36	36
PRC-verified doctors (year end)	4	10	10
Active families (year end)	438	1,562	2,500
Teleconsults per month (year end)	9	50	50

Peak cash need over 36 months: **₱6.21M**. Month 36 EBITDA: **-₱133,605**. As specified, this does not reach sustained break-even within 36 months.

4. 36-month projection: One province

Revenue

Revenue	Year 1	Year 2	Year 3	3-year total
Diagnostics booking fees	₱0.07M	₱0.74M	₱1.30M	₱2.11M
Diagnostics subscriptions and home service	₱0.01M	₱0.14M	₱0.21M	₱0.36M
Pharmacy subscriptions and reservations	₱0.02M	₱0.20M	₱0.33M	₱0.54M
Doctor subscriptions	₱0.00M	₱0.02M	₱0.03M	₱0.06M
Teleconsult fees	₱0.00M	₱0.04M	₱0.07M	₱0.12M
YAKAP clinics (free segment)	₱0.00M	₱0.00M	₱0.00M	₱0.00M
OFW remote payment fees	₱0.02M	₱0.23M	₱0.48M	₱0.73M
Family plan subscriptions	₱0.00M	₱0.16M	₱0.34M	₱0.50M
Total revenue	₱0.12M	₱1.55M	₱2.76M	₱4.43M

Operating costs

Cost	Year 1	Year 2	Year 3	3-year total
Team	₱0.93M	₱1.24M	₱1.30M	₱3.48M
Claude Max subscription	₱0.16M	₱0.16M	₱0.16M	₱0.47M
Hosting, APIs and video	₱0.22M	₱0.26M	₱0.27M	₱0.75M
SMS and payment fees	₱0.01M	₱0.11M	₱0.21M	₱0.33M
Legal, registration, reviews	₱0.64M	₱0.40M	₱0.25M	₱1.29M
Field transport and devices	₱0.24M	₱0.29M	₱0.29M	₱0.82M
Marketing (standees, billboards, flyers)	₱0.70M	₱0.88M	₱0.88M	₱2.45M
Contingency (5%)	₱0.14M	₱0.17M	₱0.17M	₱0.48M
Total operating costs	₱3.04M	₱3.50M	₱3.52M	₱10.06M
EBITDA	-₱2.92M	-₱1.95M	-₱0.76M	-₱5.64M

Operating metrics

Metric	Year 1	Year 2	Year 3
Average monthly operating cost	₱0.25M	₱0.29M	₱0.29M
Partner providers (year end)	39	89	89
PRC-verified doctors (year end)	11	25	25
Active families (year end)	962	3,438	5,500
Teleconsults per month (year end)	23	125	125

Peak cash need over 36 months: **₱5.64M**. Month 36 EBITDA: **-₱70,858**. As specified, this does not reach sustained break-even within 36 months.

5. Marketing budget

Unchanged from the previous version: standees, billboards and flyers only. Spend starts when partners go live, not during the build.

One LGU (city or municipality)

Item	Year 1	Year 2	Year 3	3-year total
Standees	₱0.05M	₱0.01M	₱0.01M	₱0.08M
Flyers	₱0.06M	₱0.07M	₱0.07M	₱0.20M
Billboards (rental and printing)	₱0.20M	₱0.33M	₱0.33M	₱0.86M
Total marketing	₱0.32M	₱0.42M	₱0.42M	₱1.15M

One province

Item	Year 1	Year 2	Year 3	3-year total
Standees	₱0.14M	₱0.04M	₱0.04M	₱0.21M
Flyers	₱0.15M	₱0.18M	₱0.18M	₱0.51M
Billboards (rental and printing)	₱0.41M	₱0.66M	₱0.66M	₱1.73M
Total marketing	₱0.70M	₱0.88M	₱0.88M	₱2.45M

Unit costs

Item	Estimate	Use
Roll-up standee	₱1,500 each	Half at launch, the rest six months later, 25% replaced yearly
Flyers (A5, colour)	₱2 each	Launch run, then a monthly run at partner counters and barangay halls
Billboard rental	₱25,000/month	Transport terminal, public market, main road near the hospital
Billboard printing	₱15,000 each	At launch, refreshed every six months

Put a unique QR code on each billboard, standee location and flyer batch. Print has no built-in tracking, and billboards are the largest line — you need evidence before renewing one.

6. Paths to break-even

Levers applied cumulatively. The LGU partnership fee is upside until a contract is signed, not a plan.

One LGU (city or municipality)

Scenario	Year 1 costs	Year 3 revenue	Month 36 EBITDA	Peak cash	Break-even
As specified	₱2.53M	₱1.16M	-₱133,605	₱6.21M	Not within 36 months
+ Booking fee raised to ₱80	₱2.53M	₱1.34M	-₱118,605	₱5.91M	Not within 36 months
+ LGU partnership fee ₱50,000/month	₱2.53M	₱1.94M	-₱68,605	₱4.71M	Not within 36 months
+ No separate support staff	₱2.36M	₱1.94M	-₱42,060	₱3.93M	Not within 36 months

One province

Scenario	Year 1 costs	Year 3 revenue	Month 36 EBITDA	Peak cash	Break-even
As specified	₱3.04M	₱2.76M	-₱70,858	₱5.64M	Not within 36 months
+ Booking fee raised to ₱80	₱3.04M	₱3.19M	-₱34,858	₱4.93M	Not within 36 months
+ LGU partnership fee ₱50,000/month	₱3.04M	₱3.79M	₱15,142	₱4.05M	Month 31
+ No separate support staff	₱2.88M	₱3.79M	₱41,687	₱3.60M	Month 31

What this says

- **A single LGU does not work.** Even with every lever, it does not break even within 36 months. Two reps and fixed costs are too much for one city's revenue. Treat an LGU start as a stepping stone to neighbouring towns, not a destination.
- **One province is close.** With the ₱80 booking fee and an LGU partnership it reaches sustained break-even around month 31, with a peak cash need near ₱4M.
- **Dropping clinic revenue costs little in cash, but a lot in positioning.** At the old assumption a mature province produced only about ₱58,000 a year from clinic subscriptions. The real loss is that YAKAP clinics can no longer be counted on as a paying channel at all, so diagnostics and pharmacies have to carry the commercial case.
- **Doctor revenue is small and uncertain.** Subscriptions and teleconsult fees together are a minor line. If adoption comes in under 20%, the plan barely moves — so do not let doctor recruitment consume field time that diagnostics and pharmacies need.
- **Expanding to neighbouring towns is the most reliable lever.** Legal, compliance, tooling and support costs barely grow with each new area.

7. Notes and limitations

- Founder time is not costed. Drawing a ₱25,000 monthly salary adds about ₱360,000 a year including contributions.
- Doctor subscription adoption (20%) and the teleconsult fee (₱50) are the least evidenced numbers here. Test both with the first cohort before relying on them.
- The LGU partnership line depends on government procurement rules and timelines. Treat it as upside.
- Billboard rates vary widely by city and location. Get three local quotes before committing.
- Taxes, VAT remittance, interest and depreciation are excluded; figures are EBITDA-level.
- A virtual office is not budgeted. If your LGU will not issue a mayor's permit for a residential address, add it.
- Risks behind these numbers are tracked in the blueprint's risk register, not here.
